INDOOR PLANT HIRE

'SICK BUILDING SYNDROME'

- Up to 75% of buildings have indoor air pollution (Especially if there is a "new-carpet or new-paint smell")
- Indoor pollutants such as benzene, formaldehyde & trichloroethylene are present in most working environments
- Health risks include: sore eyes, nose, throat & headaches
- Poor air quality contributes to employee absenteeism & lower productivity

BENEFITS of LIVE PLANTS:

- Healthier Environment – (Toxins filtered out)
- [Scientific research](#) shows: [Office-greenery boosts work output by 15%](#).
- Employees are happier – ([More physically & emotionally involved](#))
- Improved Concentration & Productivity - ([Higher well-being & creativity](#))
- [Improved Mental Health](#) - (Smart investment for health of your company)
- Clients are more relaxed - (Positively affects visitors)

INDOOR PLANT HIRE:

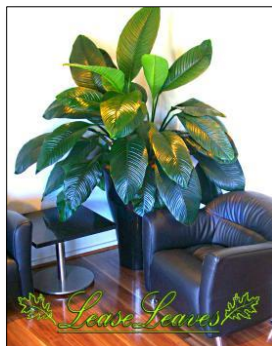

- Varieties of beautiful plants – to suit your location
- Leak-proof display pots - No carpet stains
- Carefully & professionally maintained in top condition
- We water, trim, fertilise & replace as needed. **You do nothing!**
- Live plants say: "[I care about my staff and customers](#)".
